There are some typos in this brief. Can we correct and resubmit?

Can we have an aerial phot of the site before remedy and a depiction of the sediment basins and topography post remedy to speak from for the briefing? I think a few slides describing our PP, the merits of the PP, the potential community reaction and next steps could suffice for our briefing.

Taylor

Attached are the briefing docs for the Silver Bow/Butte and Anaconda proposed plans in advance of the Administrator's briefing on 3/29. We have several folks planning to fly in for the briefing from our Montana OPS office, so please let us know as soon as possible if the 3/29 briefing date does not work for the Administrator.

Thanks.

Sandy
